MILLION DOLLAR FACIAL

The Million Dollar facial targets pigmentation, lines and wrinkles, dull and tired skin and acne scarring to leave you with brighter, smoother and hydrated skin. It includes:

- **Dermaplane** - Exfoliation helps increase your absorption rate of any active ingredients, creates collagen synthesis, improves skin tone & texture. Also removes peach fuzz.
- **Million Dollar Facial Serum** - With antioxidants, it helps protect the skin against free radical damage caused by the environment, which can break down your collagen.
- **Ice Globe Lymphatic Drainage Massage** - The cooling and soothing effect of the globes performing a lymphatic drainage massage will give your skin the ultimate detox leaving you with a brighter complexion.
- **Microneedling** - Microneedling is a cosmetic procedure. It involves pricking the skin with tiny sterilized needles. The small wounds cause your body to make more collagen and elastin, which heal your skin and help you look younger. There is minimal discomfort and downtime.
- **The Million Dollar Mask** - Hydrates the skin, removes excess oils and improves the appearance of pores. It is also an excellent way to help draw out impurities.
